CREATING TECHNOLOGY LEADERS OF TOMORROW

IGNITE 2026

Jyothi Engineering College honored outstanding Plus-Two teachers and schools from the Palakkad and Thrissur districts with awards. Awards were presented to the schools selected as 'Best Schools': Don Bosco (Mannuthy), St. Aloysius (Elthuruth), TRK (Vaniyamkulam), and St. Thomas Higher Secondary School. The event was inaugurated by K. Bhavadasan, Managing Director of K.P. Namboodiris Ayurvedic. College Executive Director Fr. David Nettikadan, Academic Director Rev. Dr. Jose Kannampuzha, Principal Dr. P. Sojan Lal, Registrar Dr. V.M. Sevi, P. Akhil, and P.R. Bobby, among others, delivered speeches.

NATIONAL SPACE DAY CELEBRATION

Women's Day was celebrated under the auspices of the Women Development Cell (WDC) at Jyothi Engineering College. The event was inaugurated by architect and entrepreneur Archana Menon and Jolly Joy, Executive Director of Joys Resort and Hotel. Coordinator Ambili Francis, College Principal Dr. Sojan P. Lal, Academic Director Fr. Dr. Jose Kannampuzha, and WDC Student Coordinator Ms. Diya Devassy addressed the gathering.

NATIONAL AWARD

Jyothi Engineering College has received the 'Golden Sustainable Campus' recognition as part of the 'Bharat Sustainability Campus Mission 2026'—a nationwide initiative organized by the Environment Protection Training and Research Institute (EPTRI), Hyderabad, and the Research Heights Foundation under the Bharat Environment Program. The recognition was awarded in consideration of campus-level green initiatives, environmental awareness programs, various activities aligned with the United Nations' development goals, and active participation in environmental conservation training and sustainable development activities.

Now experience the 'Way of the Cross' through touch

Thrissur: A 'Way of the Cross' experience designed for the visually impaired—allowing them to perceive the scenes through touch—is being prepared. The AI-based 3D tactile sculptures were developed through a collaboration between the Sanmitha Social Inclusion Lab at Jyothi Engineering College and Punarjeeva Technology Solutions. By touching the sculptures, one can accurately grasp the depth and emotional expression of the images. Along with Braille notes describing each location, there is also an audio system accessible via QR codes that can be scanned using a smartphone. The message regarding the Passion of Christ can be heard in both Malayalam and English. The project was executed with the direct involvement of visually impaired individuals. Tactile paving tiles have also been installed to enable independent movement. The project was completed under the leadership of Robin Tomy. Archbishop Mar Andrews Thazhath will inaugurate the facility at Puthenpally on the 28th at 5 PM. Rev. Dr. Jose Kannampuzha, the College Academic Director, stated that the A3-sized sculptures would be permanently installed in the church and that this initiative serves as a gift to differently-abled individuals ahead of Holy Week.
