To be honest, this is going to be a little bit casual way of me sharing my experience. I had so much fun in this entire training program. I am very glad that I was able to be a part of it. I am a hosteller but few days I decided to go home and come back to college in like a day scholar. Despite of the travelling issues and all the other factors but still all these rain were ~~find~~ worth it. Thank you so much Krishna Kumar sir and Mrindula Ma'am for coming here and being part of this AD family. I was not interested about my S4 but now I think with such ~~an~~ a class, the AD class I could do it. Thank you for creating a platform for me and for other student to come forward and be out of the comfort zone. I am so thankful to be able to be a part of it. Mrindula ma'am even though you were behind the scene I thought of you as a quiet sweet ma'am. But OMA you are fire. OMA you are awesome. Krishna Kumar sir, you looked like my cousin who lives far away so I was able to connect with him. To be honest I was able to learn a lot of things and I wish I could learn like that till the end. Thank you so much we love you.

The Training program conducted by krish sir and mridhula mam was a wonderful experience. I Learned so many new things. Not to Assume It helped me to overcome my stage fear and made me more confident. I was a person who was afraid to come up and speak in front of public. But, the way he encouraged us made it all possible. Thank You Sir and Mam for everything

My Training Experience :

I'm starting my training Experience feedback by giving a big thankyou for Krishna Kumar Sir and Anandhika ma'am .
 There was totaly 3 days of training but unfortunately i was able to attend only 2 days training . But the rest of days was very wonderful and first ever in my life i spoke through the mic standing on a stage in front for my colleagues . And it was very beautiful experience as i kicked out by my inner fear , lack of confidence and an undetermined mind set . I'm also very lucky to have a team my team members who were very cooperative and supportive . I wish there could be a subject like placement training in our every-day timetable . Thankyou for krish sir and Anandhika ma'am for giving us the wonderful opportunity .

My Training Experience :

I sincerely thank you, Klish Sir and Mrudula mam for this wonderful opportunity. In fact, I never thought this program will be such special to me. It was my first time attending an training program. To be very frank the 1st day I thought this was like normal boring class as usual. But it was not, you proved that it was not. Still I have regrets, personally I know I didn't contribute things that I can do. I have all the resources with me but I didn't do nothing. I can speak well, I ~~did~~ don't. I don't know what happened. Whenever there get a chance I was like next time... procrastinating as usual.

But however from this learned that opportunities are quite and precise, nothing comes to us rather we ~~choose~~^{go} for it. From this experience, I will never miss an opportunity that hit my goal.

I think this will remain as a huge regret but still it enlightens me through some of the life lessons.

Thank you

My Training Experience :

The last 3 days was a really good experience in my life. This is my first time to attend such an awesome session. The first ^{day} for me was really frustrating. But I had a mind set to be the first to make my team to reach the first position. And I'm setting that as my goal for the 3 days so that after the session when I was in my home I was like to do something to improve our team scores so that we will win. Kishu sir and midula ma'am takes a lots of effort to make us understand the skills to be needed and how it is applicable through the management activities, quiz, group discussion, unity activities, team works, etc. We fully enjoyed each session and we are fully engaged. This was my 1st time to be this much engaged and concentrating to all the words that are shared with us. I really improve myself ~~is~~ by seeking eye-contacts, smiling face, sharing my ideas with my team members, promoting them to do the activities, etc. We are like the small circles in a chain that are bonded tight and we help each other to increase our tally points as well. Overall that was a wonderful opportunity for me to participate or to be a part of this wonderful session.

My Training Experience :

From the past 3 days of placement Training programme. I never thought that I am changed this much and I got motivated and learned so many lessons. ~~I~~ since my childhood I had so many problems like Communication skills, lack of confidence, how to behave in an audience. In a professional field I realised that I had to change professionally ~~as~~ ~~the~~ whole is our appearance ~~and~~, behaviour towards others, having positive attitude etc. First of all thanking ~~him~~ is very important because in these 3 days sessional programmes he believes us to be able to be a professional.

From the first day onwards He gives us so many tasks which has so many values in that activity. In 'Counting the number activity' we got to clap when the number which has number 7

and it must be multiple of 7 and numbers are from 97
1 to 100. In this activity we need to be focus,
confident.

Sir separated ^{the} ~~person~~ ^{members} ~~persons~~ in the room into
4 different Teams. After that we ~~got~~ ~~team~~ by
creating the teams giving so many opportunities
like Activities like G.D, quiz etc. ~~we~~ ~~so~~ I got
a created ^{ive} team which Shwini was the captain and
Ruby mariga Jashy is the vice captain. ~~the~~ other
members were also simply intelligent and
creative. We really worked hard and ~~got~~ ~~tasks~~
tasks to make the opportunities wonderful.

~~I would like to~~
It is pleasure to meet Krish Sir and
Mrs Maddula mam. And thanking the management
and ~~Biba~~ ^{Biba} Sir for conducting the programme. ~~then~~

My Training Experience :

I wouldn't say it is the happiest three days that I had, but I would most definitely say it was the most productive couple of days that I had. And I hadn't got on stage for a long time, but this class gave me chance to brush up my public speaking skill and reduce my stage fears. I was really getting out of my comfort zone, I really got on stage a few times, ~~without~~ myself, for getting tally points and keep up with my fellow members. And I think that is why I wasn't happiest, because I stepped out of my comfort zone. But I was happy when I finish my tasks, ~~earn~~ points for my team.

And from these classes or workshop I learned where am I weak and where should I improve. And I already started improving with the help of lovely trainers.

Overall it was a very experience. It really gave me the taste what is happening in companies and what will happen to me, and I what should I do to get placements or a job. It was a really necessary workshop that I should have ~~to~~ attend sooner or later and I am happy this is this soon.

The workshop personally helped to get better at communication skills, social skills and I learned to how to do better presentations. at school level and job level.

My Training Experience :

These three days makes a lot of changes in me. Very grateful to you Krish Sir, Mridula Mam who guided me in my ways. The team experience was really nice everyone of our team put on their efforts, their ideas, their creativity into act and created a magic among ourselves.

I was leader from my childhood till now but everytime it scares me in front of the stage and in front of everyone. I had got many opportunities to reflect myself to others. I really tried to grab opportunities but while I sit in chair I'm really nervous what should I have to tell, I would be well prepared but not having the courage to express or speak from my heart. But this empower training program made me release from my fear, try to grab more opportunities, speak confidently if you speak from heart you have nothing to fear off and you could open up like a wave. Do everything with mind, hand, body and soul was the real heart touching quote that really touched me. I have more to say that would not only just conclude in this paper. I will be more

My Training Experience :

Actually I was not in a mood of attending the meeting because I was in my lowest in the time. But I make up with all the and I decides to join the training. At starting I was like what is this. I don't want to participate so the first day was not a good one but I gain so many new lessons from ~~it~~ day so I will take all the the lesson I take to my better life.

Two day two was a important day. I got many changes in my character. By the end of the training I am looking forward to the future. and I ~~it~~ will be the success of person on

"Keep pushing forward"

My Training Experience :

On the first day i had a wonderful experience which i thought would be a boring experience in spite of all that i was very happy. I also became a team leader which was not by my decision but my team-mates. It made me happy that they thought about me as their leader. so i thought that i would expand all my limits and reach my maximum thats why i tried this hard. I want to make sure that my team was the better one so i made my teammates also my leaders. And all the ~~months~~^{months} which was told to us made me realize that it would be very much helpful and useful in my futures. on the 2nd day they taught us how i should be or how we should be. This all made me understand that with all the lessons i was taught till that day will be ~~the~~ my futures. now i can tell that i would have a better future and i want to thank both sir and Mrs Mithula maam for that. Thank you for all your hardwork.

My Training Experience :

These three days of M-power training programme was really a confidence booster. At the first I was having a mindset of not involving or I thought this will be some normal training programme. But now I will cherish those moments I had during the training. Literally, this was one of the best three day of my life. ~~was~~ Before attending this programme, I was really worried about my communication skills, confidence levels etc. Before this I was a boy who was having severe stage fear, my father used to tell me about my fears, he always tells me to be confident, but I kept thinking that I will solve all those problems later. when I had this programme which was a shy buster. I really wondered after doing the mime, I didn't think I will be able to do those.

My Training Experience :

My experience in 3 days was very wonderful. There is a drastic change in these 3 days. I had a fire in my body. On the 1st day there was a discomfortability for my mind, because of coming out from my comfort zone. Krish sir and madam ~~was~~ had made influenced inside of my mind. I become more aware or consciousness. There is emotional change in zigzagly to my mind. It ~~was~~ gave me a positive attitude, Sir have told variety of steps for entering into interview. The manners we should keep during a interview selection. He had made a great change in my life. I think madam was analysing us what are the weak points and strength of me. At last madam have givers me advice

These 3 days of training program is the most memorable day. Because these 3 days made me to understand and make me aware of whatever capabilities I have and what all are my limitations.

From the day 1 we was only focused on getting more and more points and how we can be the best, in between I learned many mistakes and how to correct it. Many life moral values and I've learned in these 3 days and I try to maintain the qualities and values throughout my life. I think it this can make a huge impact on me for my coming journey of life. It was really a huge exposure that we could get in our ^{entire} college life.

I can see ~~many~~ so many changes in my teammates and whole class itself. And one thing to tell to you Sir and Mam God will bless you as you are opening up the minds and breaking all our fears and limitations and making thousands of

This training program was an unforgettable memory in my college life and Mr. Madhavan and Mr. Ishan Kumar Sir was the ~~person~~ two unforgettable legend which I remember always.

Thank you Sir for making me more confident and you helped me to decrease my stage fear. we all of us learned a lot of thing and how to attend an interview, group discussion and all like that what all will be question and other things to be done for the whole class.

I know one thing the student who attended in this program will change. before some time on the ~~class~~ ^{sem} of 3 semester 3. There was some groupism no. by seeing and attending this program it was nothing like that. There was no groupism of we are one and we are one.

My Training Experience :

The training Experience was very excellent. Because of one and all Krishnakumar Sir and wife Mridula Maam. I am very happy Today. Because increase my Confidence level, reduce my stage fear.

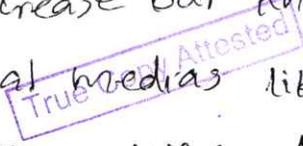

First day when we come to **M** power training. I am so shy and lazy. And my knowledge level is very low and also communication skill. And first day we do management activities and team activities. But that day my participation was very low towards team because of lack of confidence.

But second day onwards there is an enthusiastic team spirit. I am so happy with that.

We can do a management activity and mime. Mime teach us that we improve our communication level through body language. Quiz is another interactive session. Because it increase our knowledge

And we create many social medias like Telegram, webpage, Instagram. Then we create

badges. then we sing our anthem prepared by Angela. And the end of second day we all at team spirit peak, our aim is that any way we will reach at Top score. First and second day we are the Topper.

Third day was very very competitive. Because all are well confident and ready to do anything without any shame. So competitive spirit increases. Today we do Group discussion. All encourage very well. Participate actively. And sir give a spot topic and talk about one minute. The lesson from that we learned is we can speak English. Our aim is to know what you can do for others. There is no ~~no~~ communication skill very well. We thought we are not very shy & lack of confidence. Finally it was energetic & wonderful session. I am so happy today.

Thank you.

My Training Experience :

Lessons will give experience, experience will give confidence to handle problems. When I am coming to this section I have lot of assumptions, beyond that assumption the class was excellent and beautiful. Krush sir told us that he going to do repairing works of our insecurities to handle the soft skills. Actually all of us have our own skills. There is only a little bit modifications are required to make them ideal and perfect. I am a person who do not like to stand in front of so many people. I really think I can't do any activities like mune, dancing and singing but I was also surprised when am done that things I am asked many questions to myself more than I used to. In this three days training programme lot of activities are done. Actually I think each and every thing doing in a motivation class and charts are games to gives us pleasant moments. But every small things will surely give lot of lessons. When I am coming for this training programme I have something but now I have perfect points arranged in perfect manner. usually when I am studying in diploma we use the word professionalist; now I understood that we do not know the perfect or correct meaning of it.

The thing about my greatest fear is losing¹⁶⁹
I can't stand for a losing. But today I take
responsibility of the quiz of our team I take
risk. If it is failure or victory I have the
power taking initiative towards the risk question.
that actually realised me that losing is nothing
learn from your losing. If you lose the pain
from lose will lead us to the huge victory
beyond our imagination.

Incidentally from the first time I get in to the
class there was two teams like LET student
and regular students. Now actually not now
The secondary of training programme we are
become the unity. ~~whom~~ like the birds. Thank
you for give the opportunity sir and man's
from my bottom of heart.

My Training Experience :

Training program conducted by M-POWER personal enhancement training was an eye opener for the hidden talents of our team members as well as classmates. We all stood up and came out of our comfort zones for our teams. We were ready to unleash the super humans and could observe what are we and how can we become the best.

Managing activities were conducted to make us understand what the world looks like and how competitive that could be. We understood the necessities for time management, presence of mind, confidence, alertness.

The power of communications and level of confidence we showcase were the main milestones that could make us extraordinary. We understood that with unity and bravery we could do the impossible.

most of the things we considered impossible and difficult to perform became just activities that were cracked easily with our teamwork and dedication.

We could analyse how faster our brain can perform and the decision making strategy was excelled. Team members were supporting each other and could uplift ourselves.

We learned and experienced how to apply the knowledge we gained in the right places at the right time. We thought that multitasking was only for cooperatives but in the last 3 days we were all doing the same.

This training experience helped us moulding the professionals we wanted to be for enhancing our career growth.

My Training Experience :

This feedback may not be formal as I am writing this from my heart. I was having high expectations when the training started & I asked my friends from other batches about their experience and everyone told that it was exciting. So with great excitement for the first time in my college life ~~I was~~ attending a session or class or program with enthusiasm and interest. To be honest I was really lacking these things in my life the ~~be~~ motivation, goal mindset, excitement on doing something. I had it in my past but it was really missing in this phase of my life. I'm a kind of person who talks to myself and I have deep thought and can spend hours thinking about it. I was not really happy with the way I was going in life but this training session made me realize that I still have it in me. "The desire to become the best" that was the driving force which I lacked ~~but~~. And this program gave me a spark ^{to my} desire and now its up to me to turn that spark into fire. ~~and~~ I realized that I lag in my academic and technical skill ~~the~~ through this program it made me realize to start it from day ^{one} and all you have is this moment. whatever happened in past ~~now~~ is done I it wanted to get placement or whatever the life I desire I need to take initiative and change my life

My Training Experience :

After the 3 days of the placement training I feel more confident and I am prepared to talk before a crowd and was able to overcome my stage fear. All three days was a mix of fun & ~~education~~ and also there were many things that I was able to learn in these training. Moreover, I was aware of the qualities that I should reside on a ideal engineer. I learned that ethical and soft skills are more important than technical skill. With the bottom of my heart I thank Krishna Sir and Aridula mam for providing such wonderful 3 days in my life. and I will try to reflect all these ^{new} learnings in my life.

To be frank these 3 days were the best days of my college life. I would really like to thank our principal our management. And most importantly I would like to thank Keishu sir and Mrithula ma'am for guiding us and providing us with the information of how to attend the placements, what are the interviews looking for from the candidates. This program workshop was truly a life changing moment for me as I was a self reserved and kind of introverted person, but after attending the workshop I feel free and more confident as I was before. I promise to carry on these qualities that I have inculcated with me till the end and I promise to be a good human being. Thank you for this wonderful experience.

My Training Experience :

On 24th April when we started our journey of placement training I had no idea about it. But still I really liked Krish sir's confidence & the way he started his training. It was peer friendly & none of us had a bad experience. There were many activities. Ri

First day we made a group/team of 8 members. My team named as 'SWIFT' which is one of the fastest birds in world. Our team captain was Sameen & I was the vice captain. We also signed a contract that we will be present on all day & will give our 200%. There was an activity where we have clap when the number seven or multiples of 7. This activity proved the importance of listening skill, concentration, time management etc.

Second day we had a lot of activities/ students were given a chance to share their experience. Ri I can really see a big change among my friends. Then we did an advertisement & group discussion.

Third day i.e. the last day was really memorable. We all were dressed well & shared experience. There was an activity too. At the evening we had a ceremony where the champions were given awards.

My Training Experience :

Respected Sir and Ma'am,

This three day MPower training program was something amazing that I have ever experienced.

I am sure I am not the same Nandana few days before. You have truly helped in moulding ourselves. Not only me the CSE-B batch is not the same batch. Every activity was fun loving but we learned a lot from it. Especially I got to be in stage share something which is a big thing for me. I often have a tendency to forget the lines once I am in stage but it has improved a lot.

I would really appreciate for the commitment the sir and ma'am has shown to us.

Thank you ma'am and sir for the wonderful class and moulding us to professional.

Thank you!!

My 3-day placement training program by empower was an unforgettable experience for me. It taught me many soft skills and importance of them in my future life. Through this training program I could improve my communication skill, stage fear, Responsibility, Punctuality.

The program was handled by Krishnakumar Sir and Mridula Mam. They were very motivating and they helped me a lot in improving myself.

I would like to thank the college management for organizing such a wonderful session and specially Krishnakumar Sir and Mridula Mam for giving us a good time to improve ourself.

My Training Experience :

During this training program I got to learn a lot of things which needed for my future. I would like to tell my honest experience about my experience. This program ~~was~~^{is} successful.

The informations and tips Krishnakumar sir gave us was useful. The important thing I got from this three day's program is confidence and decrease/Less stage fears. Now I could say in confidence I can speak English without any fears and I can go on stand on stage and speak in front of people's. From this program I got to know about the tricky questions which may ask in interview's and ~~a~~ how to answer it correctly. not only the interview questions importance ~~is~~ I got to know what are the office manner's, table manner's, how to be a good student or son/daughter how to write a resume and how to make it powerfull, sitting posture or body language which we need to keep while in interview or in office. I could differentiate myself from the first and the last day which is today. My confidence level really did increased. ~~I could~~ I ~~could~~ get to talk to everyone in our group, our group was really energetic and goal oriented.

I would like to thank everyone who helped ^{were} or part of this program. This was really a good opportunities for us. Thank you Jyothi's placement management who gave us this opportunities. Im really thankful to Bibin sir, and our tutor's, HOD and Maunty Krishnakumar sir and Mridula mam which we can't ~~enough~~ thank enough they helped us overcome our fear gave us knowledge. they were really friends, never scold us made us understood what was wrong with us and what we should

My Training Experience :

I would like to express my sincere gratitude towards the people who worked in and worked for this training programme to be a success. First of all I would like to thank Krish Sir and Mridula Ma'am for this one of a kind and life changing experience. I would like to say that you guys would have a special place in my heart and this paper would never be enough to thank you. I know that I had something in me but due to many past events in my life I was never confident to come out and showcase myself. But this programme has made a very big difference. I hope this is a very big beginning to achieving my dreams and starting my journey the way I wanted. I got to learn a lot of things and I would definitely keep this in my mind and carry it throughout my life. I got the chance to be the captain of my team. It helped me to bring out the leadership skill in me. But, to be honest, my team was indeed a single unit; we worked for each other, helped each other and supported each other for the benefit of each other and the pride of our team. Even as a team, we got to learn and improve a lot. I believe we as a team, as a class, we all improved. I believe we improved individually and like small pieces making a big puzzle, the small individuals would reflect in the overall improvement of the class. I would like to thank you ~~for~~ our college management for giving us this precious opportunity. I would like to quote Shah Rukh Khan, where he said "Normal is not a thing; it is just another word for lifeless." So once again Thank you! Thank You So much for all the information, inspiration and motivation!

Love,

Athvik

My Training Experience :

I had a wonderful experience in this three days, ~~was~~ it really changed our minds, a ~~big~~ major part of our mind set has changed. The ~~the~~ session from the very first start was an eye opener. Every was able to come out of their comfort zone. The fire that ~~she~~ has put inside us at the first day had its impact until the last day and throughout our life.

Main Learning points from this session was each and every single thing you do, that is every small think has its own important. The first manthra we learned "Don't assume things" was a point which we havin't even thought about.

I could personally feel a light of confidence, leadership, a many of skill in me. I am sure this was a big turning point in my life.

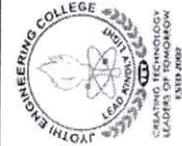

The Importance of punctuality, listening skills, grabbing opportunity, and making things practical, importance of planning, Team work. I was clearly able to see many changes in my friends. Everyones talents, were unleashed.

My Training Experience :

The three day mpower workshop was a great experience in my life. I had little doubts and I was lazy to even get up in the morning of the first day of the program. But when I entered the room I was like ~~die~~ going out to get out because I always hated being in a room where our quality was checked. But as soon I understood the necessity of the professionalism and the skills that should be acquired by the professional; I thought and decided that I should do this. But lack of confidence and the thinking and assumption of people judging me was still making me doubtful to do my work. The work done after I was also fun even I had many works which were prioritized. The workshop allowed me to stop assuming people's thought about to you. But I had to do more work in overcoming my fight of stage and develop confidence. I'm sorry for not being able to give my fullest. But I will always try to bring confidence up. Thankyou ~~or~~ kish sir, sudula ma'am for the wonderful

I came to know about this training program in my 1st year. Seeing my seniors in formal's made me really wanna attend this program. I have been waiting for a year. I was actually sad to know that we were the last ~~class~~ batch, you know had to wait longer. My patience is poor.

The first day I became a team captain of my team. My teammates are good fellows. I hoped that they would be a little bit more competitive. My experience of being a captain was amazing. I got to know about my flaws as a captain. I hope to correct it in my future.

And this program surely helped me to improve my confidence even more and mad me realize about the importance of ~~speaking~~ reading books and news. And definitely to never stop learning. And inspired me to be an amazing employee of a company in my future.

Thank you ~~Mr~~ Krishnakumar and Msidula mam

for all that you did to help us to be better.

Two Days Placement Training Program FOR JYOTHI ENGINEERING COLLEGE, THRISSUR

Training Aim

- Make the trainees understand and prepared with the concepts and requirements of placement.
- Inculcate the qualities of different soft skills through activity oriented training.
- Improve their confidence level and communication through experiential learning

Training Participants

Final year Engineering Students of Jyothi Engineering College, Thrissur

Program Delivery Approach

Activity oriented and fun learning-based approach towards making the participants understand and imbibe the concepts. This method of delivery helps the participant to experiment, practice and experience the core ideas about organizational behavior and team building concepts which they have to acquire as part of the training program.

All sessions are planned to Develop all-round personalities of the participants by focusing interview skills, grooming, resume preparation, developing confidence, goal setting, team building, competency mapping etc.

Sessions will be facilitated by one training faculty to monitor, evaluate and ensure healthy participation of all participating individuals.

TRAINING REPORT

The Computer Science Department of Jyothi Engineering College organized a 2-day " **SOFT SKILL DEVELOPMENT TRAINING PROGRAM** " in offline mode for the students of Semester - 6 , CSE -B on 15-03-2023 and 16-03-2023 (Wednesday and Thursday).

On the first day, the session was conducted by Mr. Uwais A.A. A total of 58 students from the S6 CSE-B class attended the session, which began at 9 am in the morning. This session focused on overcoming inhibition and shyness. He discussed both internal and external factors that affect self-confidence. He encouraged each of us to step onto the stage and perform tasks to help eliminate stage fear. Additionally, he taught us how to improve our body language and the proper way to approach an interview with confident body language. Throughout the session, He assigned various tasks to enhance our teamwork, leadership qualities, coordination, and cooperation. We engaged in several games that helped improve our communication skills. Furthermore, he emphasized the importance of behaving professionally in different situations.

On the second day, the session focused more on interview guidance. A total of 55 students from the S6 CSE-B class actively participated in the session, which commenced at 9 am in the morning. The day began with a discussion on how to properly write resumes and CVs. He assigned us a task the previous day to create our own resumes, and we all prepared them and discussed the dos and don'ts of resume writing, as well as how to make them more appealing.

Following that, He organized a group discussion for some students among us, demonstrating the proper way to engage in such discussions by highlighting several key points. In the afternoon, he selected a few students to participate in online interviews, which were conducted in a professional manner. Subsequently, we formed various groups and conducted offline interviews, organizing them ourselves.

The overall sessions brought out the potential in many students who excelled in volunteering, taking initiative, giving presentations, attending interviews, and demonstrating leadership qualities. This success was a clear indication that the objective of the soft skill development training, particularly interview guidance, was achieved. Feedback was collected from all participants to improve future sessions.

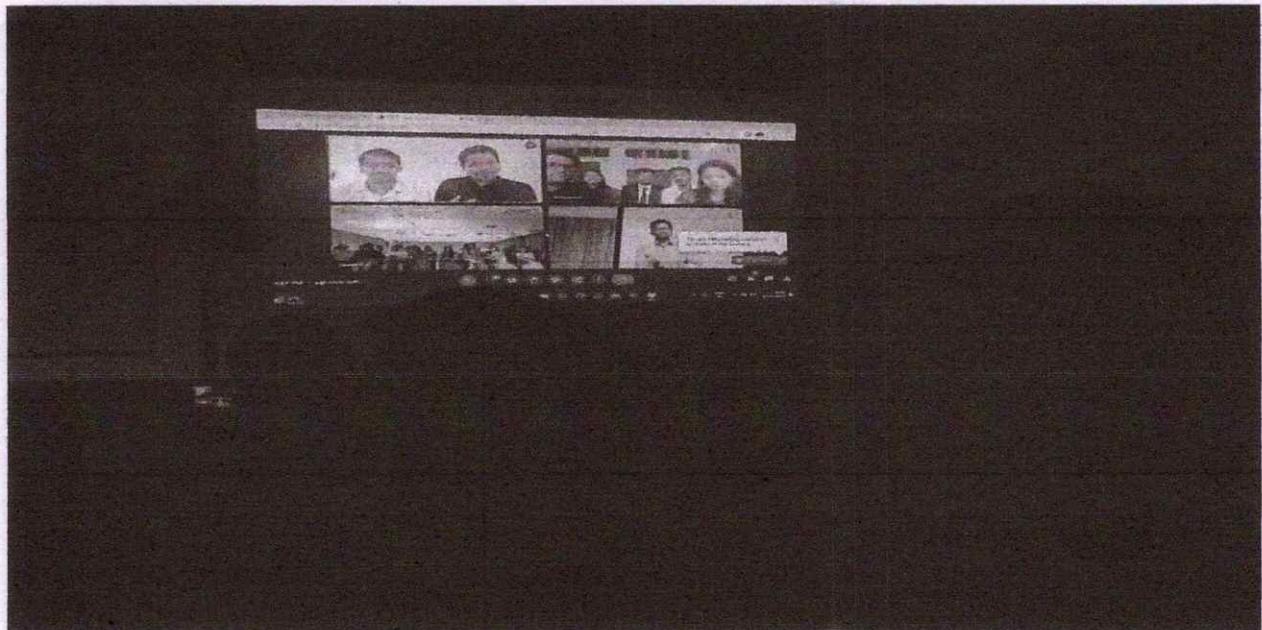

The program concluded at 4:00 pm on Thursday, and it was a fruitful day of learning and skill development.

Pragmatix Learning Resources

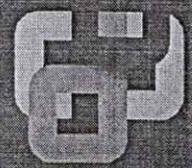

At PRAGMATIX, we strongly believe in being realistic and practical in everything we set out to do. At the same time, we stand firmly for quality and believe in providing uncompromised standards in every responsibility that we take up. Pragmatix Learning Resources has been set up with the vision of bringing as many students as possible up to those levels where they are considered to be employable. And we do this by instilling in students those skills that are necessary to be successful in their particular chosen fields.

Why Choose Pragmatix?

- Together, our leadership team has a combined experience of over 45 years in the training industry
- Five of our trainers have trained in over 150 engineering colleges each, ranging from Premium institutions to Tier 3 institutions
- Our trainers have a combined experience of training over 4.5 lakh students across the country
- We have won numerous accolades from the student community and our trainers were the preferred trainers when it came to competitive demo across various colleges
- The offline support we offer to students is an innovative step we adopt to support students to clear their doubts, to help them prepare campus placements and much more. Our trainers will be available through chat, sms and phone depending on the nature of support.

Placement Preparedness Training

This is one of our flagship products, where we up-skill the students to be placement ready. During this program we cover all the required aspects of quantitative aptitude, logical reasoning, verbal ability, group discussion, and personal interview.

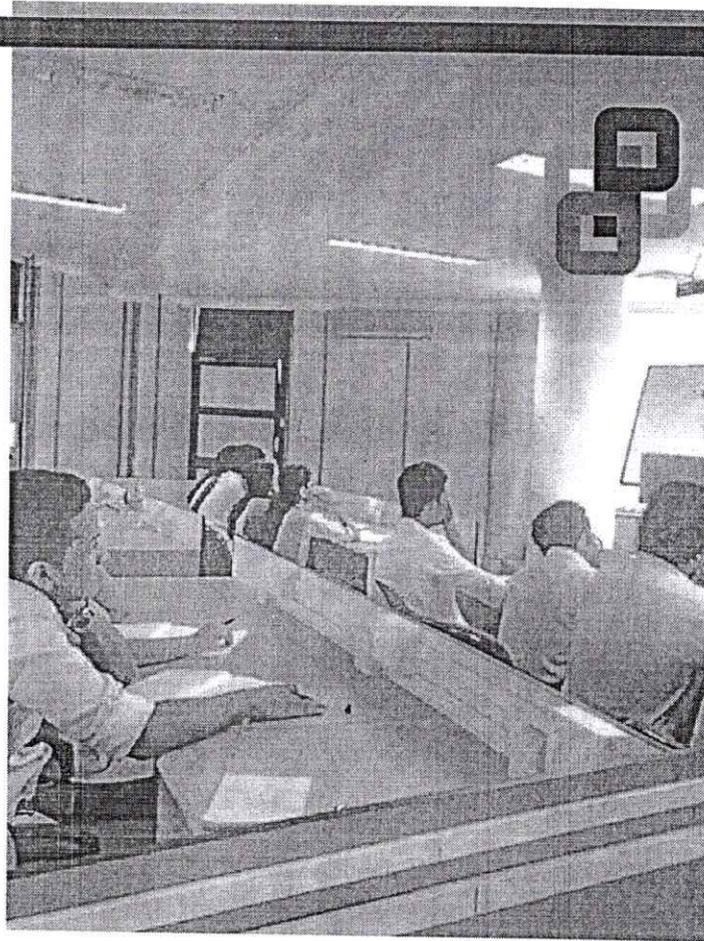

We are now adopting a blended mode, with LMS and Instructor-led Training. Each student will get the credentials for the portal, and they can practice the basic concepts in the portal with recorded videos and test papers.

The concepts covered in this course are based on the aptitude pattern of major companies. Also, we constantly upgrade the content to keep up with the changes and thus provide the best quality available to our students.

The detailed schedule will be prepared according to the college time table.

The following areas are covered in this course;

- Quantitative Aptitude
- Logical Reasoning
- Verbal Ability
- Group Discussion
- Personal Interview
- Resume Building

Recruitment Essentials Training

This is one of our flagship products, where we up-skill the students to be placement ready. During this program we cover all the required aspects of group discussion, personal interview, and resume building.

The number of students who crack the aptitude tests and yet fail to clear the subsequent rounds is alarmingly high. This program has been designed to counter this phenomenon and is aimed at students who are adept in cracking

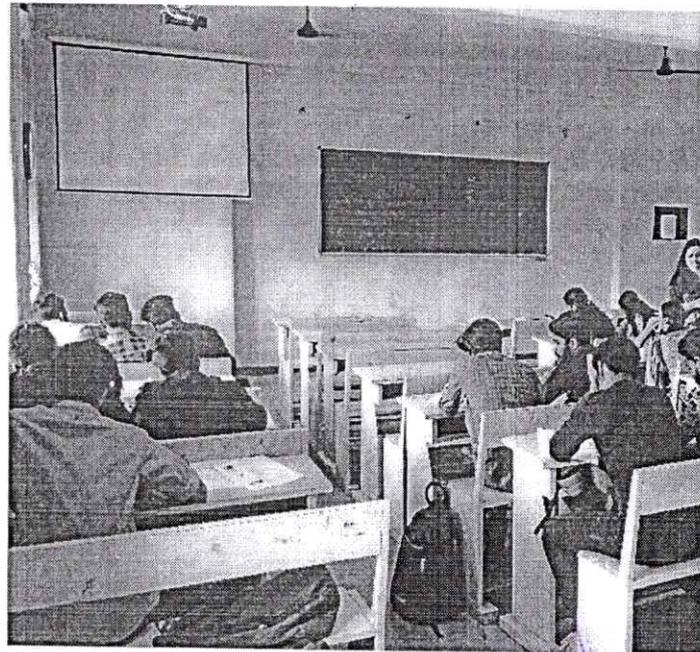

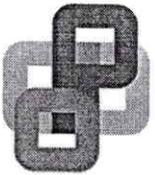

aptitude tests, but fail to make a mark in group discussions and personal interviews. Students will be given in-depth orientation sessions after which they will be made to take part in multiple mock discussions and interviews followed by detailed analysis of their performances.

The concepts covered in this course are based on the recruitment test pattern of major companies. Also, we constantly upgrade the content to keep up with the changes and thus provide the best quality available to our students.

The following areas are covered in this course;

- Group Discussion
- Personal Interview
- Resume Building

Company Specific Training

Most of the companies follow different aptitude test and interview patterns in testing and selecting the students. A few tier 1 companies test the students in Quantitative & Logical while few other companies test the students majorly in Verbal ability and few other companies follow AMCAT pattern. The pattern differs from company to company and it becomes extremely important for the student to learn and understand the correct pattern to make sure they pass the threshold without difficulty.

Major companies conduct the aptitude test for hiring fresh graduates in their own pattern which is being used in campus/pool/off campus placements. The pattern broadly remained the same in the last few years with few changes introduced year after year. We will be able to provide the updated pattern and the types of questions covered in the aptitude test which will help the student with a better chance to get selected.

The following activities will be covered in this course;

- Basic strategy to be adopted
- Quantitative Ability, Logical Reasoning, and Verbal Ability questions pattern discussion
- Coding pattern discussion and practice

Intensive Aptitude Training

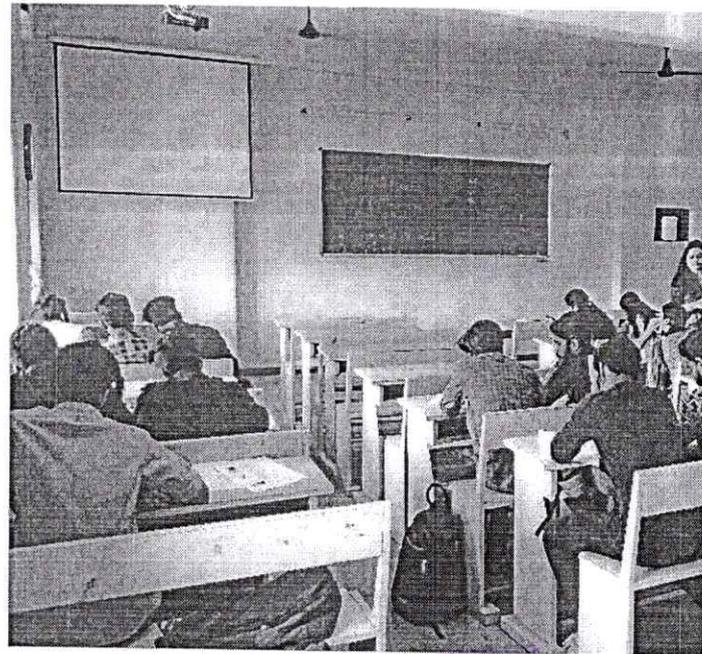

Students are given training in all topics, but not often they are given a platform to solve good number of easy, medium and high difficulty level questions pertained to a particular topic. The trainer, while taking the theory session, may not be able to cover lot many questions given the time constraint.

We have designed this course to make sure students are provided with a platform to solve enough number of questions from every important topic in quantitative aptitude, verbal ability and logical reasoning. The topics are selected based on the frequency of occurrence in the competitive test papers of companies, banks, government entities etc.

During the course of this program we cover a minimum of 20 to a maximum of 40 questions under each topic, according to the competency level of the students. We will be able to cover only 20 in a below average and will be able to cover a maximum of 40 in a highly competent class.

The following areas are covered in this course;

- Quantitative Aptitude
- Logical Reasoning
- Verbal Ability

Training Plan

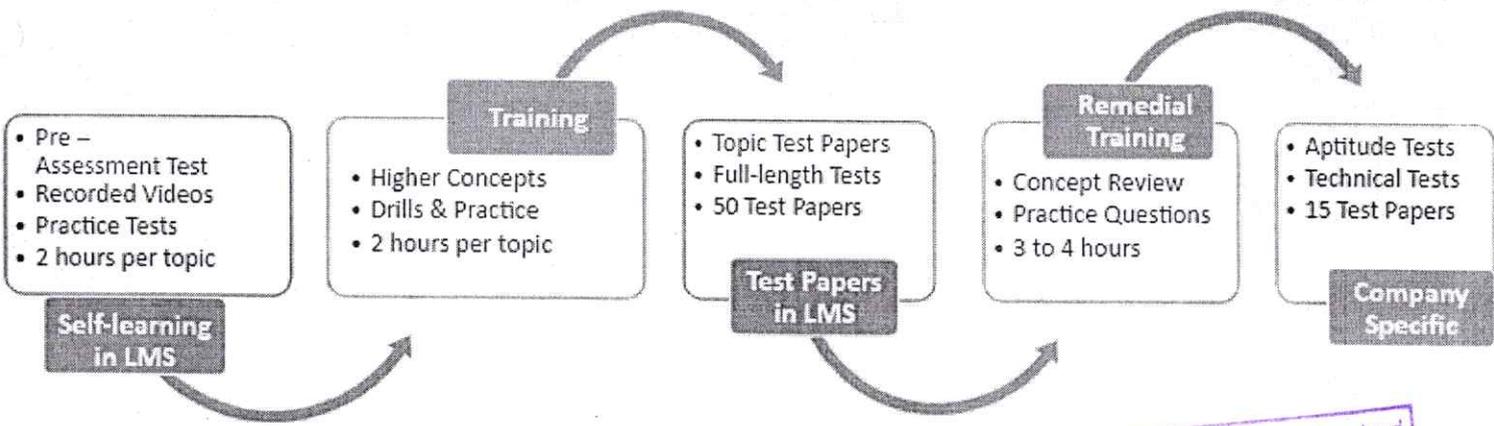

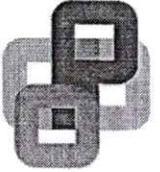

Step	Mode	Area	Description
Step-1	Self-paced learning (e-learning portal)	Concepts	We will provide login credentials for the students in our e-learning portal which will have the self-paced content for all the concepts. The self-paced sessions can be recorded sessions and/or videos of our Master Trainers explaining the concepts with drill questions to practice
Step-2	Pre-Assessment (e-learning portal)	Concept Practice	Students must take up Pre-Assessment in the e-learning portal once they complete the self-paced learning content
Step-3	Instructor-led Training	Topic discussion in detail	Instructor-led Training will be organized in batches, with a batch size of 60. In ILT, the trainers will cover all the important concepts and explain the important questions. Students can also utilize this session to get answers for all their queries.
Step-4	Post-Assessment (e-learning)	Entire Topic	Students must take up Post-Assessment in the e-learning portal once the Live Virtual Class is over
Step-5	Practice Test (e-learning)	Entire Topic	Students can work on questions in the topic by attempting practice tests on the topic
Step-6	Practice Test (e-learning)	Full-length Test Paper	Students can work on questions across all the topics by attempting full-length test papers

Rules in detail

Divisibility Rule of 12

Rule for 12: The number must be divisible by 3 and 4.

Example: 8244

I. First, we have to check if the number is a multiple of 4. The last 2 digit is multiple of 4 so the number 8244 is a multiple of 4.

II. Secondly, we have to check for 3. We know the sum of the digits has to be a multiple of 3. $8+2+4+4 = 18$ is a multiple of 3. So, the number 8244 is a multiple of 3.

III. Hence the number 8244 is a multiple of 12

1. 38196 $\swarrow \searrow \rightarrow 3$

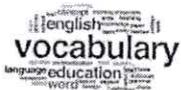

2. 11236

$27 \rightarrow 3$

Deepak Jose

Personal Summary

Deepak is one of the founders of Pragmatix Learning Resources, a leading training and development firm from Cochin, and heads its Training Delivery and Quality Assurance department. After graduation, he worked as a Software Engineer for a brief span, only to relinquish it later and choose training as his vocation. He is a great influencer and is extremely passionate about training and making a difference in the youth. He has an insane work ethic, proved by the fact that he has consistently remained the most utilized trainer for the last 6 years. He is a spirited individual and always aims to invoke that fire in students too through his classes.

Career History

- Worked as a Training Quality Manager and Recruitment Process Specialist in his previous organisation.
- Has taken part in over 300 training programs and trained over 1.35 lakh students from 171 colleges across the country.
- Responsible for mentoring fresh recruits in the organisation.
- Devised rubrics for trainer-topic mapping which has largely simplified the human resource allocation for training programs.
- Developed Technical courses for the Edutech platform.
- Responsible for planning, scheduling and execution of training programs.
- Administers the company's social media accounts and is involved in generating and publishing engaging content and communicating with the followers.

Areas of Expertise

- Programming in Python, Java.
- Famed for his sessions on orienting beginners in programming languages.
- Specialist in company-specific technical training targeting specific company recruitments.

Certifications

- Certified Career Development Practitioner – From Indian Career Education & Development Council) program and endorsed by CEAV (Training division of the Australian center for career education)
- Secured 20th rank in Teaching Professionals Olympiad Conducted by CENTA and The Hindu News Paper

Hobbies and Interests

- Has a keen interest in gastronomy and often indulges in new cuisines during his travel.
- Maintains a food blog detailing his journey and manages a social media account for the same which boasts an impressive number of followers.

Dr. Thomas George K. *aka* Thomman

(Engineer turned trainer and Edupreneur)

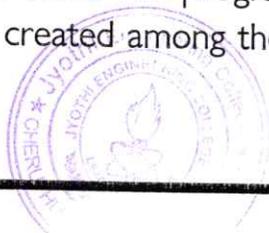

Dr. Thomas George K is an engineer turned Trainer and Edupreneur with immense interest in psychology and management education. He is a Guinness world record holder for conducting the longest business lessons in the world. Stimulus Research Services International and World of Business Magazine, Hong Kong awarded Dr Thomas a coveted title "Master of Management" in 2016. Dr. Thomas is also the recipient of 'SMART Person of Palakkad' award by the honourable Chief Minister of Kerala in 2015. In the same year, National Foundation of Entrepreneurship Development (NFED) has bestowed on him a 'distinguished entrepreneur' award.

Started his professional career with a startup "Prompt Computers" dealing with sales and services of computers and accessories in Palakkad and groomed to be the largest touch screen network provider for South Indian Railways. His intrinsic traits in psychology and management skills groomed him to be a soft skill trainer that had elevated him soon as an International Trainer of JCI through which he had visited more than 35 countries as trainer.

everlasting learnings for their life. Dr Thomas is immensely participative in organizational events like NIPM (Current Chairman Palakkad Chapter) and a host of local, regional, and state level organisations like (Secretary AMICU -Association of Management Institutions under University of Calicut), Executive Member of ASMIK (Association of self-management institutions in Kerala) bestowing his services relentlessly.

In 2011, he has conceived and developed a dream project of endeavoring a business management school and started the first residential business school of its type in Palakkad Kerala with 60 students and today groomed to be one of the top business schools in Kerala with the highest intake of 300+ students and the most sought-after Business schools in Kerala. Lead College of Management is in the list of top business schools list today accredited by NBA and approved by AICTE and affiliated to University of Calicut Kerala.

The acronym 'LEAD' is known for Leadership and Entrepreneurship Academy Dhoni, Palakkad. For the last three consecutive years, LEAD is listed among IIMs, Symbiosis, SRM, VIT, Bits Ranchi, and other reputed institutions by Business India in their Business School Rating. LEAD is poised to secure the most coveted international accreditations like AACSB, AMBA, ACBSP and EQUIS in the ensuing years.

Recently, in 2023, Dr. Thomas George K has written a book titled "Preneur" on entrepreneurship and business management where shares his experiences and insights as a successful businessman and educator and provides practical tips and guidance for starting or expanding a business.

Dr Thomas is B.Tech in Engineering followed by master's in psychology, management, and a doctorate in Psychology from a state university viz Bharathiar University. He can be contacted at 09447146479 and email thomas@lead.ac.in.

Respected Sir,

Sub: Request for the inauguration of Mechatronics Engineering Students Association (MESA)

The department of Mechatronics, Jyothi Engineering college in association with Indian Society for Technical Education (ISTE) students chapter would like to have the inauguration of Mechatronics Engineering Students Association (MESA) on 14th October 2022 at 03:10 P. M. at the decennial hall. Mr. Rahul P. Balachandran, Founder, Inker Robotics, Thrissur has agreed to be the chief guest for the same. I request you to kindly grant permission for the same.

Thanking You

Yours sincerely

Respected Sir,

Sub: Request for Engineers' Day Celebrations

As a part of 55th Engineers' Day Celebrations, IEI student chapter of Jyothi Engineering college in association with the department of Mechatronics would like to host a program on 15th September, 2022 at 9:30 am at the decennial hall. Dr. A. Seema, Scientist D, Centre for Materials for Electronics Technology (C-MET), Athani, Thrissur has agreed to the chief guest for the same. The theme for Engineers' Day 2022 is "Smart Engineering for a better world". A poster design competition with the above theme can also be arranged for the students. Cash prizes will be awarded for the best three designs. I request you to kindly grant permission for the same.

Thanking You

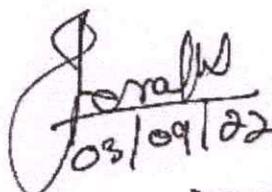

Yours sincerely

Startup Awareness and Leadership Training (SALT) 3.0

Date : 22 November 2022

Venue : Decenial Hall

The third edition of Startup Awareness and Leadership Training (SALT) was successfully delivered to the students of Government Vocational Higher Secondary School, Thrissur, Kerala. The students participated enthusiastically in the interactive activities and engaging sessions. The program aimed to inspire and motivate students to pursue entrepreneurship as a career option.

During the training, the students were encouraged to think creatively and develop innovative ideas for their startups. They were given guidance on leadership skills and were taught about branding and marketing strategies to help them develop their businesses successfully. The program aimed to equip the students with the necessary skills and knowledge to become successful entrepreneurs.

The SALT program received positive feedback from the students, who found the sessions highly informative and engaging. They expressed their interest in pursuing entrepreneurship as a career, and many of them were motivated to start their businesses in the future.

Overall, the third edition of SALT was a resounding success, and the program is expected to continue to inspire and motivate students to pursue entrepreneurship and become future leaders.

Pragmatix Learning Resources

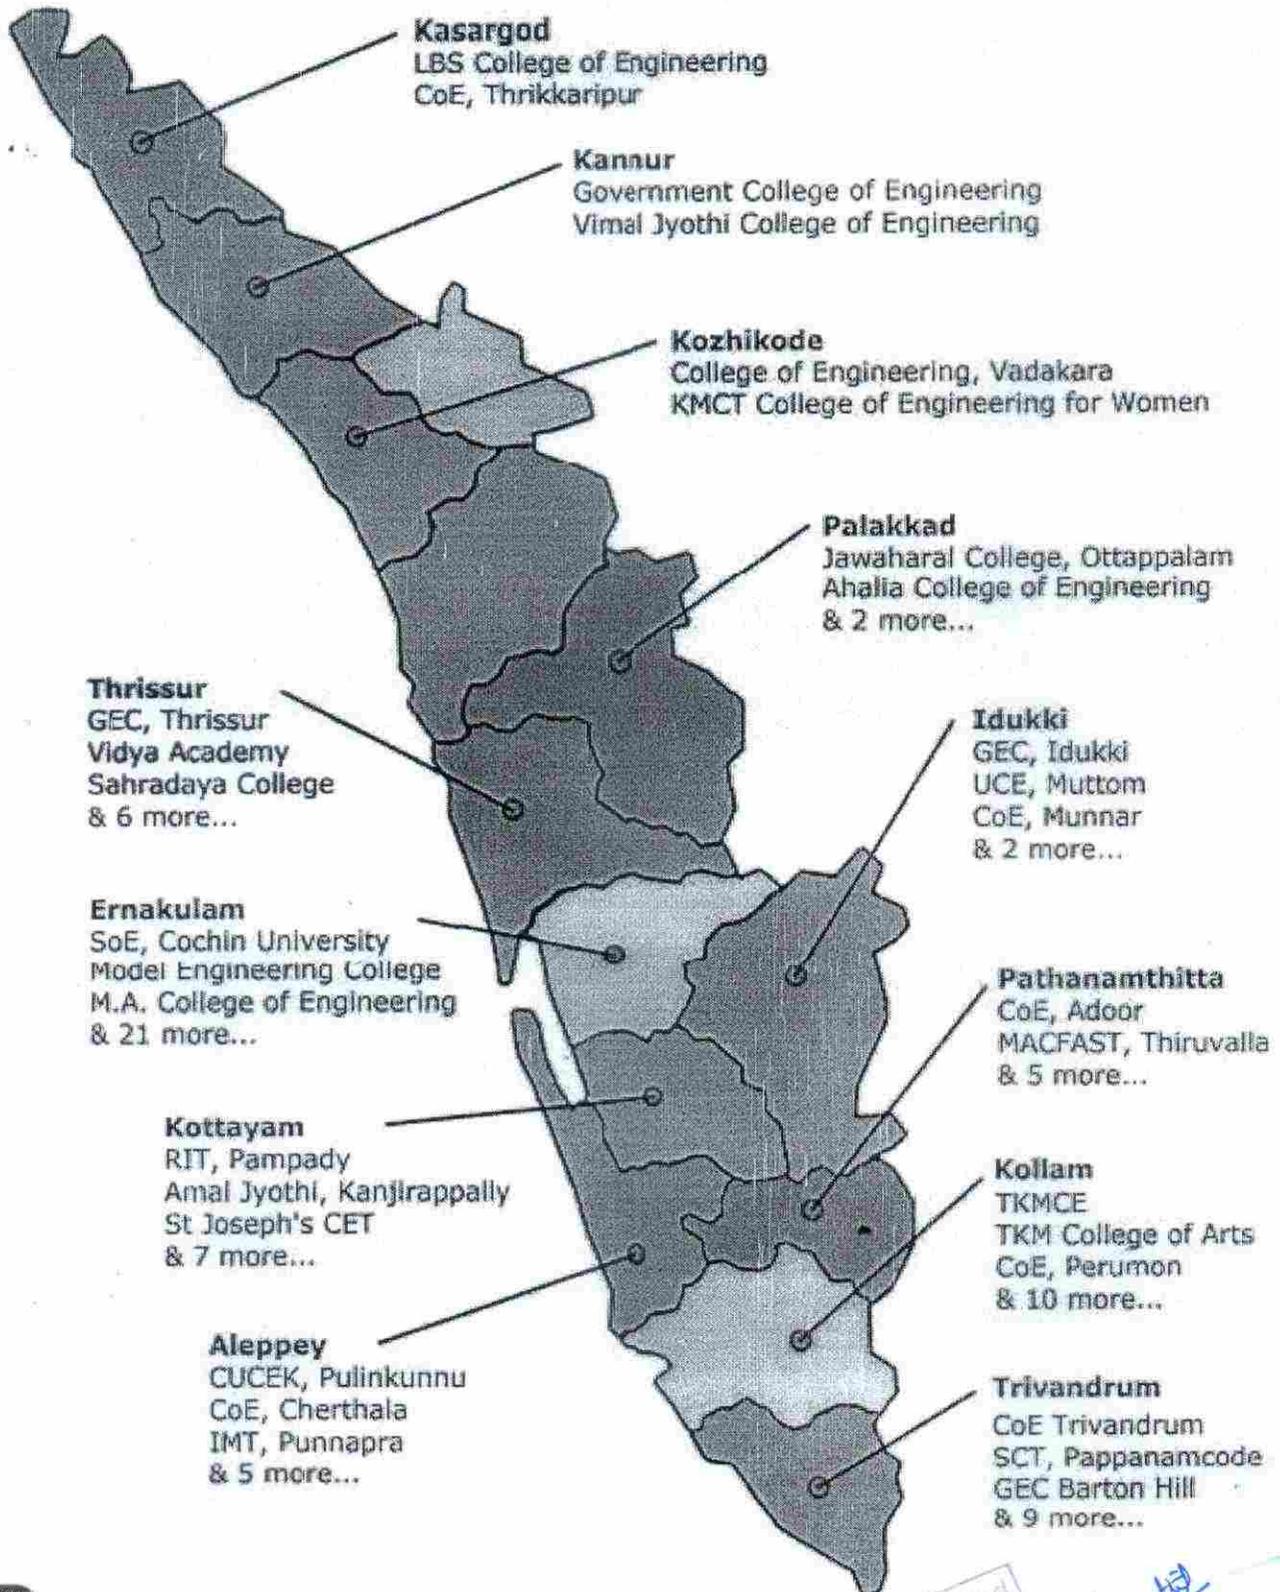

At PRAGMATIX, we strongly believe in being realistic and practical in everything we set out to do. At the same time, we stand firmly for quality and believe in providing uncompromised standards in every responsibility that we take up. Pragmatix Learning Resources has been set up with the vision of bringing as many students as possible up to those levels where they are considered to be employable. And we do this by instilling in students those skills that are necessary to be successful in their particular chosen fields.

Why Choose Pragmatix?

- Together, our leadership team has a combined experience of over 45 years in the training industry
- Five of our trainers have trained in over 150 engineering colleges each, ranging from Premium institutions to Tier 3 institutions
- Our trainers have a combined experience of training over 4.5 lakh students across the country
- We have won numerous accolades from the student community and our trainers were the preferred trainers when it came to competitive demo across various colleges
- The offline support we offer to students is an innovative step we adopt to support students to clear their doubts, to help them prepare campus placements and much more. Our trainers will be available through chat, sms and phone depending on the nature of support.
