- The files are to be in .pdf format.
- There must be a separate table for each section/part of the question paper. Each section should have a small header indicating the part number/name and the choice system applicable to the section. The number and structure of the sections must be in accordance with the university pattern for the relevant subject.
- Question numbering is done in the first column and numbers will run continuously from 1 to the maximum number of questions in the question paper, irrespective of the sections/parts. The numbering here must not contain alphabets or special characters. Sub-questions must be referred to as a,b,c etc. and the code must be within the cell allotted to the matter of the question. A question must not span more than a cell.
- Restriction of the size of the question paper to two pages is advised for convenience and to save trees.
- The question paper files are to be named in the following format. QP-DateofExam-Dept-Semester-Subject_Code-Subject_name-qp_code (qp_code is A,B and C respectively for the three question papers being uploaded)
(Eg: QP-05/03/19-CSE-VI-CS306-COMPUTER_NETWORKS-A).
- The question paper should contain questions covering 2 modules.

EXAM CODE: Top Left Corner: <DEPT><UG or PG><2/4/8><A/B/X><DATE><F/A>

<DEPT>: Department which is offering the course. (Not the department of the faculty)

<2/4/8> : 2 or 4 or 8 depending on the semester

IQAC is in charge of preparing the question papers for in semester exams and the logistics of conducting the exams are taken care of by the examination cell. IQAC shall receive a set of three question papers from each faculty and an expert panel set up by IQAC involving subject experts chooses a question paper from the three, to be used for the exam.

The expert committee set up by IQAC for the purpose shall look into the following aspects while scrutinizing and selecting the question paper for the exam:

1. Whether the questions are in precise accordance with the syllabus prescribed for the exam.
2. Whether the questions assess all the performance indicators mapped to the relevant COs of the portions prescribed.
3. Whether question paper contains questions from various Bloom's Taxonomy levels.
4. Whether each question is correctly mapped to the corresponding COs, PIs and BTL.
