Normalized marks for Civil Engineering (CE) paper

\*\* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

### **General Information**

The GATE 2023 score is calculated using the formula

GATE Score =  $S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$ 

where.

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2023 scorecard

Mais the qualifying marks for general category candidate in the paper

M<sub>t</sub> is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multisession papers including all sessions)

 $S_a = 350$ , is the score assigned to  $M_a$ 

 $S_t = 900$ , is the score assigned to  $M_t$ 

In the GATE 2023 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2023 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2023 was organized by Indian Institute of Technology Kanpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.
