Dear Sir,

I am very happy to accept your invitation as a resource person for the webinar on " Modelling and Simulations of Event Driven Systems in MATLAB/STATEFLOW ". or I can also give on Intelligent "Control Strategies for Action Coordination of Mobile Robotic Systems" (AI).

However, I would like to request you to keep it either on 15.12.2020 or 17.12.2020. Because I have a project review for Final Year Mechatronic Students on 16.12.2020.

Thanks and Regards
Kuppan Chetty RM

# DEPARTMENT OF MECHATRONICS ENGINEERING

## Report - Webinar on "Modelling and Simulation"

The Department of Mechatronics Engineering in association with ISTE Student Chapter, Jyothi Engineering College conducted a webinar on "**Modelling and Simulation**"on **31.12.2020 (11.30 AM - 01.00 PM)** Dr.R.M.KuppanChetty, Associate Professor -- Centre for Robotics and Automation, Hindustan Institute of Technology and Science, Chennai is consented to be the resource person for the webinar.

The Session started with the welcome address and introduction about the Resource Person by Mr.N.Jeyakkannan, Assistant Professor – MR, Jyothi Engineering College.

Dr.R.M.Kuppanchetty has mentioned about the various techniques of Modelling and Simulation of Industrial robots and he specially addressed the various simulation software used in Robotics and Automation for students projects. Finally he elaborates the various career opportunities for Robotics and Mechatronics Engineering students in the field of Automation.

Totally 100+ students have attended the webinar. The Session is more useful and interactive with Q&A session at the end.

Later the vote of thanks was delivered by Ms.Shamin E Varkey, Assistant Professor– MR

The Speaker specially thanked Jyothi Engineering College for organizing such a webinar for the benefit of student's community and he is willing to guide and support in future project activities and programs related to Robotics and Automation for our students.

Mr.N.Jeyakkannan
Coordinator & AP – MR

# INNOVATIONS AND ENTREPRENEURSHIP DEVELOPMENT CELL JYOTHI ENGINEERING COLLEGE

Innovations and Entrepreneurship Development Cell (IEDC) of Jyothi Engineering College, in association with the International Centre for Free and Open Source Software (ICFOSS) Jyothi Engineering College, organized a workshop on **Web Scraping Using Python**. The details of the program are as follows.

Resource Person: Mr. Anand Murali
Runner Up- Reboot Kerala Hackathon 2020
Jyothi Engineering College

Date: 29/11/2020, Sunday

Time: 11:00 AM

Platform: Google Meet

Mr. Jothis R Daas welcomed all the participants. Mr. Anil Antony, Nodal Officer – IEDC JECC welcomed the resource person and introduced him to the participants. The event was coordinated by Mr. Jothis R Daas, S5 MRE, and Mr. Amal Sebastian, S5 CSE. Nearly 60+ participants, from various educational institutes across Kerala, were present throughout the meeting on average. After the Q&A session, Mr. Amal Sebastian delivered the vote of thanks.

The workshop concluded at 12.10 pm.

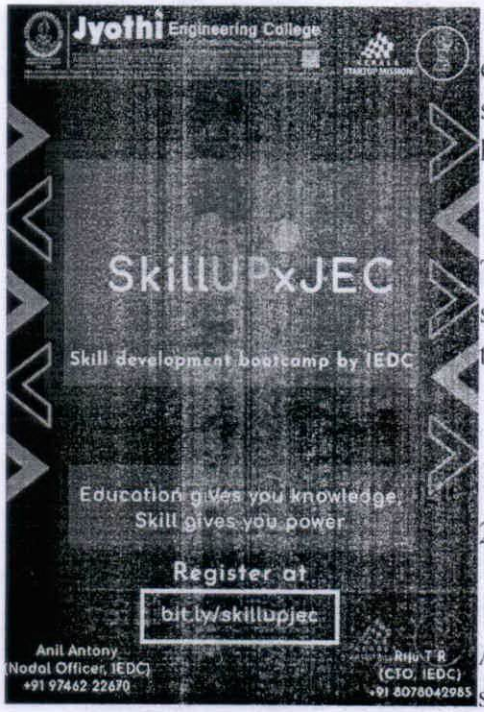
# SkillUPxJEC

**Venue : Online (Google Meet )** **Date: 01.06.2020 – 01.07.2020**



SkillUPxJEC is bootcamp initiated by IEDC of Jyothi engineering college. It was mainly intended to develop new skills and reduce the stresses of students in the covid-19 hard times.

This was mainly conducted for mainly develop technical skill with freelancing opportunities for students. There were two skills included in the bootcamp.

1. Machine Learning using TensorFlow
2. Front End Development

Around 100 students were registered for the program and 10 students actively completed and certified from us.

IAS IEEE INDUSTRY APPLICATIONS SOCIETY — Linking Research to Practice

IEEE — Advancing Technology for Humanity

- A webinar was held on ***"PCB Design and Simulation"***, by assistant professor **Mr. Jinesh K J**, Jyothi Engineering College
- The session was made open to participants both from and outside our college. It began at 11 AM and was attended by 24 students.
- The program was mainly focused to make the students do the needed designs of their circuits.
- The webinar also focused on the simulation of three simple circuits and the fundamental provisions available in Proteus were made familiar.

IAS IEEE INDUSTRY APPLICATIONS SOCIETY Linking Research to Practice

IEEE Advancing Technology for Humanity

**Mr. JITHIN** 8547156458 **Mr. JINESH** 9400086378 **MANSOOR** 9605165325

- A webinar was conducted on "***Introduction to Python***".The session was handled by **Mr. Dany Varghese**,who is a Post Graduate Research Student at the **University of Surrey,UK**
- The session began at 3 PM and 39 participants were there.
- The session was held in such a manner that the students could run the program simultaneously using colab. It explained how Python is a simple programming language that provides datatypes like list, with the help of a number of programs.

Respected Sir,

Sub : Pre- Tharang-2020 workshop-Make a Bot in a day training reg

CSE department would like to conduct a workshop "Make a Bot in a day" by ICT Academy of Kerala on 29th February 2020 in connection with Tharang-2020, in association with CESA and CSI Jyothi chapter. Experts in the field of RPA(Robotics Process Automation) from ICT Academy of Kerala will be handling the workshop. I request you to grant permission for the same.

Details of program:

**Workshop title** – "Make a Bot in a day" By ICT Academy Kerala (on Robotics Process automation with UiPath)

**Eligible Participants**: Students from any Engineering Stream. First 35 registrants will be admitted for the workshop

**Expenses Expected**

| Sl No | Description | Amount | Details |
|---|---|---|---|
| 1 | Course Fee | Rs 11900 | Including GST |
| 2 | Notepad and pen | Rs 875 | For 35 participants |
| | Total | Rs 12775 | |

**Sources of Income :**

| Sl No | Description | Amount | Details |
|---|---|---|---|
| 1 | Professional body Fund | Rs 10000 | |
| 2 | From Registration Fee | Rs 8500 (Expected) | Rs. 300 for external participants and Rs. 200 for internal Participants |
| | Total | Rs 18500 | |

Thanking you,

Bineesh M

# BOT IN A DAY

In connection with the Annual Tech fest of our college THARANG 2020, the Computer Science Department in association with CSI and CESA organized a one day workshop on the topic Robotic Process Automation "BOT IN A DAY" on the 29th of February 2020. This workshop aimed to create software robots to free humans from the repetitive tasks by replacing them with a virtual work space. There were 32 participants in total to attend the workshop out of which 2 were from Ma 'din Polytechnic, Malappuram and the remaining participants were from our college.

The workshop had begun by 9.30 am with an official ceremony in which our principal, Rev Fr Jaison Paul Mullerickal CMI, our Director of Academics, Rev Fr Jose Kannampuzha and our Hod, Rev Fr A K George had taken part and addressed the gathering. It marked a very good start for the workshop. The relevance and the future scopes regarding the topic of the workshop were discussed. After the official function the sessions were started. We had two faculties from the ICT Academy of Kerala to handle the sessions.

During the session, the students were taught about the platform named UiPath, a software to create bots. Initially the participants were given an idea on the importance and the application of this software. Later they had hands on sessions to make a bot using the software UiPath. Different demonstrations and practice sessions were given to the participants. The faculties also made sure that the participants were able to use the software with ease. The students cleared theirs doubts and actively participated in the workshop.

By the end of the afternoon session, all the participants succeeded in making the software bot within a day. Thus the objective of the workshop was completely achieved with the whole hearted and sincere participation of the students and the faculties. Towards the end we had an interactive session with the trainers and there were many students asking queries about the job opportunities in this field.

At the end we had a valedictory ceremony which was held in the presence of the staff coordinators, Mr Unnikrishnan P and Mr Bineesh M. Three of the participants shared their feedback and we came to know that they were satisfied and had a good experience. The workshop came to an end by 4 pm.

## Report reg- " Regional Round of ICTAK Techathlon-2020" by ICT Academy

Date: 29- 01- 2020
Venue: Jyothi Engineering College

ICT Academy of Kerala organized regional round of ICTAK Techathlon-2020, National Level Technical Fest in association with Jyothi Engineering college on 29 January ,2020. **ICTAK Techathlon** is a National Level Technical Fest organized by ICT Academy of Kerala every year. Techathlon is a unique technical contest designed in line with employability skills assessments conducted by Global Organizations. This is an event open to all the undergraduate, graduate and post graduate students across the country where the participants can exhibit and depict their creativity, problem solving, collaboration, and communication and prototyping skills. The participants will have to identify a real-life problem from their surroundings/locality and submit a proposal that clearly define the problem and describe the probable solution for the problem. There will be contests that test various skills of the participants. The aim of regional round is to select teams for final round of Techathlon-2020, which is scheduled on 7,6 February,2020. 14 teams participated Techathlon representing different colleges. Two teams from Jyothi Engineering College got selected for the regional round of ICTAK Techathlon-2020.

Campus Head of Jyothi Engineering College Fr. Roy Joseph Vadakkan, Academic Director Fr. Dr. Jose Kannampuzha and Dr. Sreekanth from ICT Academy addressed the students before starting Evaluation process. Campus Head Fr. Roy Joseph Vadakkan preached participants of the importance of Technical fest like Techathlon and the importance of being part of such events. Fr.Dr. Jose Kannampuzha talked about of the level of awareness needed for Engineering students today and the importance of technical fest like Techathlon to increase the awareness. They wished success for all the participants. Jyothi Engineering College provided computer center Lab(CC2) ,Decennial hall for the smooth conduct of the evaluation.

ICT academy of Kerala acknowledged their gratitude for the support offered by Jyothi Engineering college management toward the event.

Two teams participated the regional round of Techathlon representing Jyothi Engineering college got selected for the final round of Techathlon.

Google AI | Explore ML

To,
Fr.Dr.Jaison Paul Mulerikkal CMI
Principal Jyothi Engineering College, Cheruthuruthy, Thrissur,

Subject - Request to allow the students to conduct workshops for Google's Explore ML Program

We are glad to accept SREERAG R NANDAN for Google's Explore Machine Learning Program. The **Explore ML Program** is designed for machine learning enthusiasts to learn ML in a fun way through videos, exercises and demos. During this program, students will learn, share, brainstorm and build on ideas together. This course will be staged with 3 different levels of difficulty: Beginner, Intermediate and Advanced level tracks.

**With this document, we would request you to allow the student to host workshops for your campus associating with IEDC and CSI on 28/Aug/2019.**

Thanking you in anticipation.

Best regards,

Google AI Team

## DEPARTMENT OF ECE-ADD ON COURSE

# Fundamentals of MATLAB

This add on course provides a comprehensive introduction to the MATLAB technical computing environment. No prior programming experience or knowledge of MATLAB is assumed. Themes of data analysis, visualization, modelling, and programming are explored throughout the course.

**Course Objective**

The objective of this course is to introduce the basic operations in MATLAB and to enable the students to do basic programming with MATLAB to solve Engineering problems.

**Course Outcomes:**

CO1: Students Will be able to Familiar with memory and file management in Matlab

CO2: Students Will be able to generate plots and export this for use in reports and presentations

- CO3: Students Will be able to program scripts and functions using the Matlab development environment.

**Syllabus**

- Working with the MATLAB user interface
- Entering commands and creating variables
- Analysing vectors and matrices
- Visualizing vector and matrix data
- Working with data files
- Working with data types
- Writing programs with branching and loops
- Writing functions
- Graphs and plots in MATLAB

Talk on getting started to open source contributions was conducted by the ICFOSS club of Jyothi Engineering College in association with IEDC and Kerala Startup Mission on 2nd November 2019 at Decennial Hall. Speaker of the event was Mr Himanshu Awasthi,

Asst.System Engineer at Tata Consultancy Services (TCS) and founder of FOSS Kanpur. Seventy students actively participated in the talk. He taught the students how to contribute in the field of free and open source contributions (FOSS) by using GitHub. He talked about Richard Stallman who developed a free alternative to UNIX. He encouraged and motivated the students to actively contribute. In Hands On session he made the participants to do fork and update the content till submitting a PR. Students actively participated in the interactive session. Memento was handed over to Mr. Himanshu Awasthi by Rev. Fr. Jose Kannampuzha , Director, Jyothi Engineering College.

To

The Principal

JECC

Sir,

Sub: Request for conducting meeting for add-on courses.

We would like to conduct a meeting on 18/09/2019 with the add-on course registered students and the concerned course coordinators to discuss about the course execution. I kindly request you to grant us permission for the same.

## DEPARTMENT OF ECE-ADD ON COURSE

# CCTV Installation

Closed-circuit television (CCTV), also known as video surveillance, is the use of video cameras to transmit a signal to a specific place, on a limited set of monitors. In industrial plants, CCTV equipment may be used to observe parts of a process from a central control room, for example when the environment is not suitable for humans. Through this Add on course students will be able to know different types of CCTV system, how to decide which system to use for a specific application, and about it's transmission, connections, DVR and networking.

True Copy Attested

**Key Objectives of the Course:**

1. To understanding the customer's requirements
2. To installing the camera and CCTV hardware equipment
3. To configure the system for surveillance function
4. Coordinate the work with colleagues and coworkers

M.Tech, MCA, M.Sc, M.Phil, B.Ed
Ph.D (Computer Science), Ph.D (Maths)
PRINCIPAL
Jyothi Engineering College
Cheruthuruthy P.O.- 679 531

**Course outcomes:**

CO1: Students Will be able to Interact with customer and supervisor and understand customers requirements

CO2: Students Will be able to Procuring CCTV hardware and test before installation

CO3: Students Will be able to Connecting cables and Setting up the camera using tools, Setting CCTV camera and DVR with the system

**SYLLABUS**

Dr. SUNNY JOSEPH KALAYATHANKAL
M.Tech, MCA, M.Sc, M.Phil, B.Ed
Ph.D (Computer Science), Ph.D (Maths)
PRINCIPAL
Jyothi Engineering College
Cheruthuruthy P.O.- 679 531

**Module I: CCTV Introduction (12 hours)**

To understand the import ants of surveillance,

To study different types of CCTV cameras, monitors and installation tools in brief

To familiar with different lighting conditions

To study about power supplies and different types needed for CCTV

To familiar with Different display system

To understand the site condition

Suggest solution based on the site condition and requirement

Deciding the CCTV system to be installed

To understand about the ambient light setting

**Module II: CCTV CAMERA AND LENS (12 hours)**

To acquire knowledge about different types of cameras and the latest technologies,

To study about cameras in depth,

To study about sophisticated equipments related with CCTV

Understand different Lenses

Understand the importance of focusing

To procure CCTV hardware

To test hardware before installation

To understand the focusing concept and calibration of camera

Deciding the CCTV system to be installed

**Module III: Transmission and Connections (6 hours)**

To study different types of cable, switches and other technologies to fulfill the system for Transmission

Understand the concept of splitter, multiplexer and switcher

Understand the wiring schemes

To correct the different problem related to CCTV

Understand the cable laying methods

Understand the connection establishment

## Module IV: DVR and Networking (5 hours)

To familiar with CCTV recording equipment.

To understand the networking information schemes

Understand networking equipments

Study about IP camera

To connect CCTV camera and DVR with the system

Setting up CCTV system

To check the functioning of CCTV system

To understand about different DVR related issues

**COURSE OUTCOMES VS PO MAPPING:**

## JYOTHI ADD-ON COURSES

Jyothi Engineering College is offering the following add-on course for our students:

1. **WATER QUALITY MANAGMENT OF DOMESTIC SOURCES**
2. **INTRODUCTION TO VHDL**
3. **COMPUTER AIDED DESIGN**
4. **INTRODUCTION TO IMAGE PROCESSING USING MATLAB**
5. **CCTV INSTALLATION**
6. **EMBEDDED SYSTEMS DESIGN WITH 8051**
7. **WORKSHOP ON 3-D DESIGN & 3-D PRINTING (FABLAB)**

The maximum seats available for each add-on course is 20.Students can log on to the link **courses.jyothiengg.com.** for registration and the course details .Registration will be on first come-first serve basis.

JECC

Respected Sir,

The add-on- course for this academic year is scheduled from 16th Feb 2019 to 23rd March 2019.As per the instruction from the principal and management, every Saturday will be utilized for the same.

I kindly request you grant us the permission for conducting the add-on-courses.

Dr. SUNNY JOSEPH KALAYATHANKAL

Thanking you,

Yours faithfully

Dipin Krishnan

## DEPARTMENT OF ECE-ADD ON COURSE

# Electronic Circuit Simulation and PCB Printing

**Eligibility**

ECE, EEE

**Course Objective**

This course will provide an overview in electronic circuit design , simulation and PCB printing. The course contain 3 sections 1. Circuit simulation 2. PCB design 3. PCB printing . Students will expertise with an EDA tool Proteus for Electronic Circuit Design.

**Course Objective**

- To familiarise the electronic circuit simulation using EDA tool.
- To familiarise the PCB designing and Printing process.

**Course Outcome**

CO1: Student will be able to design and simulate electronic circuit suing EDA tool.

CO2: Student will be able to design single sided PCB using EDA tool.

CO3: Student will be able to print PCB using toner transfer method.

**Syllabus**

**Unit I: Circuit Simulation**

Simulators and emulators - simple led circuit, Transistors switching circuit, Basic gates, 555 timer, Op-amp

**Unit II: PCB Design**

PCB design tool familiarization, PCB design Example – 555 timer

**Unit III: PCB Printing**

Toner transfer method, PCB Etching, Soldering
