Roy Joseph Vadakkan (fr.royjoseph@jesc.ac.in) to Jerc. The email content is as follows:

Dear ones

Over a couple of years I have a thought to do something to resist Global Warming , a technology campus should start doing something in that line , so I do plan to do two things in this year

01. No plastic is entertained in the campus...No fix etc.

02. Control of Paper use , so here after some bundle of papers will be available to each department. Proper utilization is important .After the first allocation of bundles, there is no additional A4 bundle will be available in between the year , if needs that they have to manage by themselves

Let's start with these two , more to come

God bless

Royachen
